**NEXCELOM BIOSCIENCE TO PRESENT POSTER AT KEYSTONE SYMPOSIA ON CANCER
IMMUNOLOGY AND IMMUNOTHERAPY**

Poster Highlights Company's Cellometer Image Cytometry System

[Nexcelom Bioscience](http://www.nexcelom.com), a leading provider of cell counting and analysis products for biomedical research and the biopharma industry, announced today that it will be presenting a poster at the upcoming Keystone Symposia on [Cancer Immunology and Immunotherapy](#), to be held January 27—Feb 1, 2013 in Vancouver, British Columbia, Canada.

The poster, entitled "Accurate PBMC Concentration Measurement using Image Cytometry to Eliminate RBC-Induced Counting Error," demonstrates the ability of the Nexcelom Cellometer image cytometry system to accurately measure PBMC concentration, despite red blood cell (RBC) contamination.
